GAM Development

GAM Testing
(Bangladesh, DRC, Colombia)

July 2014
GAM became mandatory

ECHO GAM: ASSESSMENT

- Qualitative Surveys on GAM and Trainings;

- Analysis of quantitative data;

- Random check on proposals/reports;

- Interviews or meetings with partners and ECHO operation staff (both at field and HQ level);

MAIN FINDINGS

NB: BEING THE FIRST YEAR OF IMPLEMENTATION OF THE ECHO GENDER & AGE MARKER, THESE FINDINGS SERVE AS A BASELINE. ASSESSMENTS WILL BE CONDUCTED ON A YEARLY BASIS.
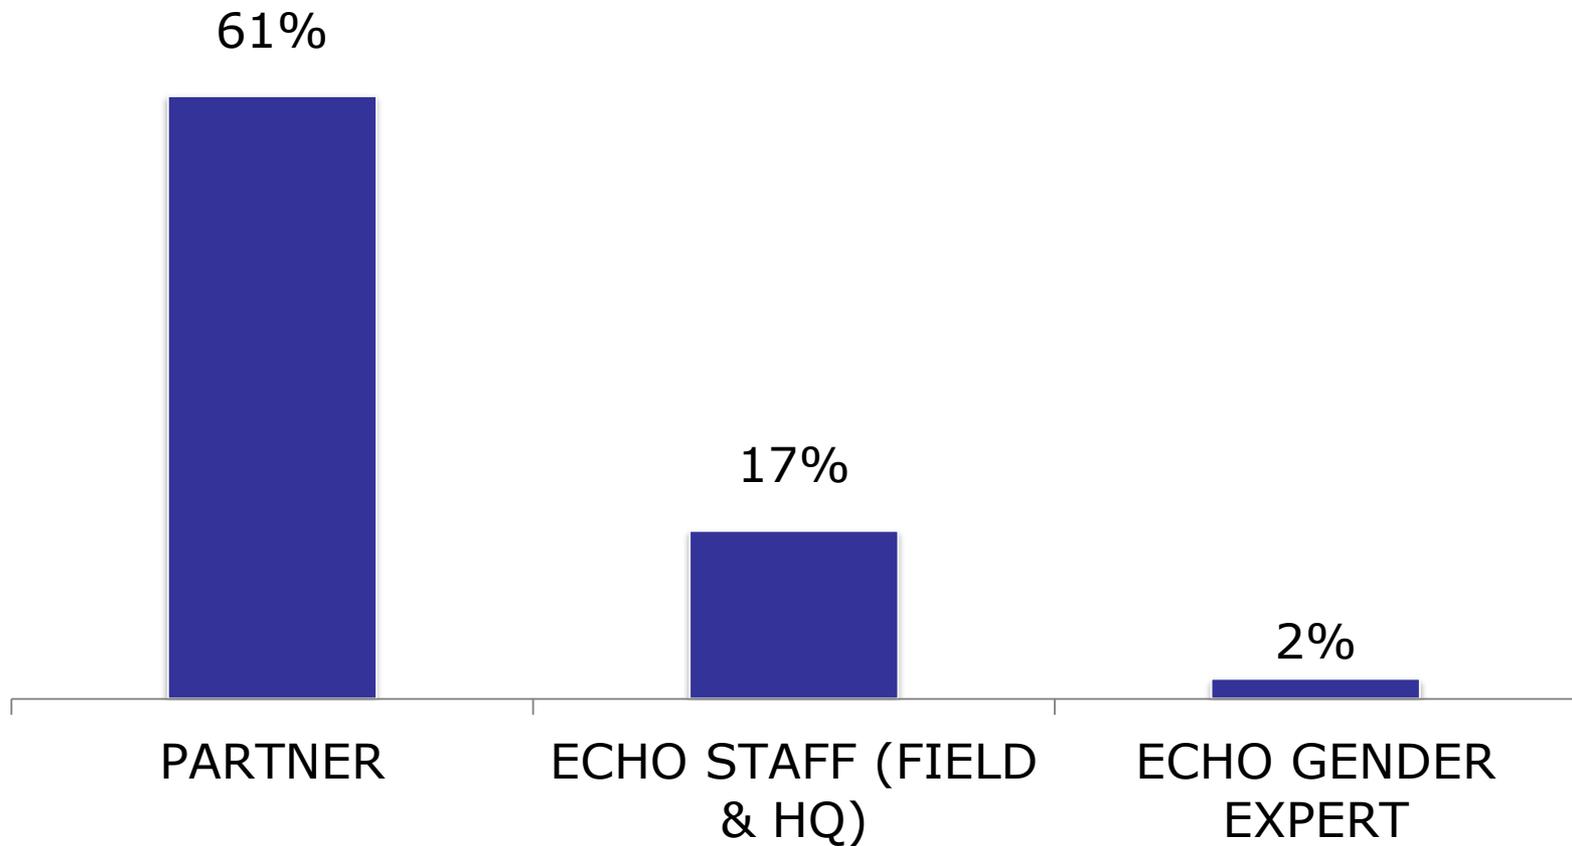

- 56% of respondents from partner organizations believe that the introduction of GAM has fostered change/positive actions to enhance gender and age mainstreaming (while 37% replied somewhat);

- Gender analysis has been identified by the majority of respondents as the least difficult, while negative effects as the most difficult criterion to be taken into consideration

MAIN FINDINGS *(cont.)*

- More than half of assessed proposals (where applicable/when information available) haven't been marked on the basis of toolkit's instructions by both partners and ECHO staff;

- Discussions between ECHO staff and partners needs to be enhanced: 46% of respondents from partner organizations think that feedback are discontinuous/only at one phase of project and 21% have not received a feedback

MAIN FINDINGS *(cont.)*

Bar chart:
- PARTNER: 61%
- ECHO STAFF (FIELD & HQ): 17%
- ECHO GENDER EXPERT: 2%
