

# STORIES AND REALITIES FROM THE GROUND: COMMUNITIES SUFFERING FROM LOSS AND DAMAGE IN THE MOUNTAINS AND LOWLANDS OF NEPAL

## JOIN OUR SESSION!

When: 6<sup>th</sup> December, 16:45- 18:15 Hrs

Where: SE - Room 5 (COP28 venue Expo City, Dubai)

### *Stop the delay. Pay for loss and damage today!*

Annual climate disasters in Nepal are resulting in profound economic and non-economic loss and damage, severely impacting the lives and assets of the most vulnerable people. Despite the dedicated efforts of Mission East and Karnali Integrated Rural Development and Research Centre to mitigate these impacts stronger support is needed from the international community.

Collaborate with us to build a robust alliance to amplify the voices of affected communities and push for better access and implementation of a just fund for loss and damage.
