

Task Force

In order to facilitate its work, the FPA Work Group created an executive body, the Task Force, responsible for responding to ECHO proposals and for informing the group as a whole. The Task Force also prepares documents needed for those tasks, such as drafting letters, reports and agendas.

The Task Force has also been the motor behind the FPA Watch Group, ensuring that the Watch Group stays motivated and spending much energy on the process. The role of the Watch Group can be considered to be parliamentary, since they bring up the problems, whereas the Task Force is the executive, because they do much of the practical work.

Members of the Task Force:

CARE International

IRC – International Rescue Committee (UK)
